Overview

A metal-free, positive-pressure, anti-reflux needle-free connector with a transparent fluid path, tightly sealed and easy to disinfect. DIALL lists a 200 mL/min flow rate, 0.06 mL residual volume and 3 to 7 days indwelling.

At a glance

Manufacturer **DIALL · China**	Category **Injection & Infusion**
Product code **RAOUF-DIALL-NEEDLELESS-CONNECTOR**	

Features

Needle-free access

No needle is needed, which avoids needlestick injuries to staff.

Anti-reflux design

Reduces the chance of blood flowing back into the catheter lumen.

Positive-pressure version

DIALL says the positive-pressure connector has a low occlusion rate and cuts nursing workload.

Easy to disinfect and inspect

A flat surface makes disinfection simple, and the transparent body lets staff see the fluid path.

Specifications

General

Versions	Standard needle-free; needle-free with positive pressure
Features	Anti-reflux design; flat surface for easy disinfection; transparent body
Departments	All departments, except laboratory and diagnostics
Sterility	Sterile, single use

Performance

Flow rate	200 mL/min

Cavity volume	0.2 mL
Residual volume	0.06 mL
Indwelling time	3 to 7 days

Dimensions

Weight	1.84 g

About the manufacturer

Zhengzhou DIALL Medical Technology, founded in 2010, develops polymer medical devices: vascular access, drainage and interventional catheters and accessories. Raouf supplies its infusion accessories in Iran.

Why Raouf Holdings

1. **Installed and commissioned**
   Our engineers deliver and install the system anywhere in Iran.
2. **Training for your team**
   Practical training for physicians and operators.
3. **Ten years of service**
   At least ten years of after-sales service, in and out of warranty.
4. **Genuine parts, nationwide**
   Spare parts on site and more than 100 representatives across Iran.
