Overview

Guide wires for cardiovascular procedures, supplied in hydrophilic and PTFE-coated versions, including a 195 cm hydrophilic PTCA wire.

At a glance

Manufacturer **Sunny Medical · China**	Category **Interventional Accessories**
Product code **RAOUF-SUNNY-MEDICAL-GUIDE-WIRES**	

Configurations

0.035" hydrophilic · PTFE-coated · Hydrophilic 195 (PTCA)

Features

Three versions

Sunmed guide wires come in stainless steel, hydrophilic-coated and PTFE-coated versions, with a choice of tips.

Construction

Each wire has a safety wire, a core wire and a wound spring for flexibility; the core is fixed or movable.

Heparin option

Some PTFE-coated wires carry a benzalkonium heparin coating over the PTFE.

Intended use

For introducing and placing diagnostic or interventional devices in the coronary and peripheral vessels; single use and sterile.
