Overview

CURAFLON is TI Medical's MEDICURA IV cannula with wings and an injection port, with a PUR, FEP or PTFE radiopaque catheter in sizes 14G to 26G.

At a glance

Manufacturer **TI Medical · India**	Model **MEDICURA**
Category **Injection & Infusion**	Product code **RAOUF-TI-MEDICAL-IV-CANNULA**

Features

Tri-cut back-cut needle

The siliconised stainless steel needle has a tri-cut, back-cut bevel for easy venipuncture.

Kink-resistant tapered catheter

The catheter is specially tapered and made from kink-resistant biocompatible material for smooth insertion, flow and indwelling time.

Needle-free injection port

The injection port lets drugs be given by syringe without a needle and prevents backflow.

Wings for stable fixation

Wings make fixation easy and reduce the risk of displacement after placement.

Radiopaque catheter lines

Radiopaque lines in the catheter allow it to be located on X-ray.

Specifications

Materials

Catheter	PUR, FEP or PTFE; radiopaque lines
Needle	Stainless steel, siliconised, back-cut bevel

General

Injection port	One-way silicone injection valve; protection cap with recessed plug
Wings	Angled and grooved for fixation
Luer	6% taper; luer cap supplied
